

## HS1418

Our largest horizontal saw is built to complete your biggest jobs. With a cutting capacity of 14" at 90°, and 12" capacity at 45°, the HS1418 will provide decades of true cutting on both large and small jobs. This reliable saw features a hydraulic feed system for a controlled feed rate and a frame that quickly swivels 60° in either direction for precise cutting for up to 12" material.

The large 24" x 30" cutting table, with a quick clamp that can be moved to either side of the table, provides a versatile work space for cutting all material.

The hydraulic feed system and built-in coolant system provides clean smooth cuts. The built-in coolant system features side splash panels, an 8-gallon coolant reservoir, and 3.5 gpm pump.

<b>Feed System</b>	Hydraulic cylinder for controlled feeds
<b>Blade Travel</b>	14"
<b>Cutting Capacity at 90°</b>	Round: 14" Square: 14"
<b>Cutting Capacity at 45°</b>	Round: 12" Square: 12"
<b>Cutting Capacity at 60°</b>	Round: 8" Square: 8"
<b>Miter Cut Angle Range</b>	0° - 60° (Saw Head Swivels 60° In Both Directions)
<b>Bevel Cut Angle Range</b>	N/A
<b>Capacity Under Guides</b>	14"
<b>Blade Size (Ships With Saw)</b>	1" Width x 11' 8" Length x .035 Thick (bi-metal)
<b>Blade Size (Accepted Widths)</b>	1"
<b>Blade Speeds</b>	70/140/270 sfpm
<b>Table</b>	Precision Ground Steel Table: 24" x 30"
<b>Table Height</b>	31" From Floor (No Casters)
<b>Motor</b>	2 HP, 220/440V three-phase
<b>Saw Dimensions</b>	34 ½" Width x 66" Height x 90" Length
<b>Shipping Dimensions</b>	41" Width x 66" Height x 96" Length
<b>Shipping Weight</b>	1,600 lbs. F.O.B. Cleveland, Ohio

**Price: \$11,105**

# ROLL·IN SAW

UNCOMPROMISED AMERICAN PRECISION

## HS1418

Fast accurate cut on up to 14" thick material

Saw easily swivels up to 60° in either direction, allowing for precise angled cuts

The weighted/hydraulic feed coupled with the automatic stop switch allows for large production and unsupervised cuts

Built-in coolant system enables faster cuts and extends the life of the saw blades
